## About your TOTAL CONTROL

---

Your manual is divided into two parts: set-up instructions and device codes. You will need your manual to set up your new TOTAL CONTROL so please be sure to keep it.

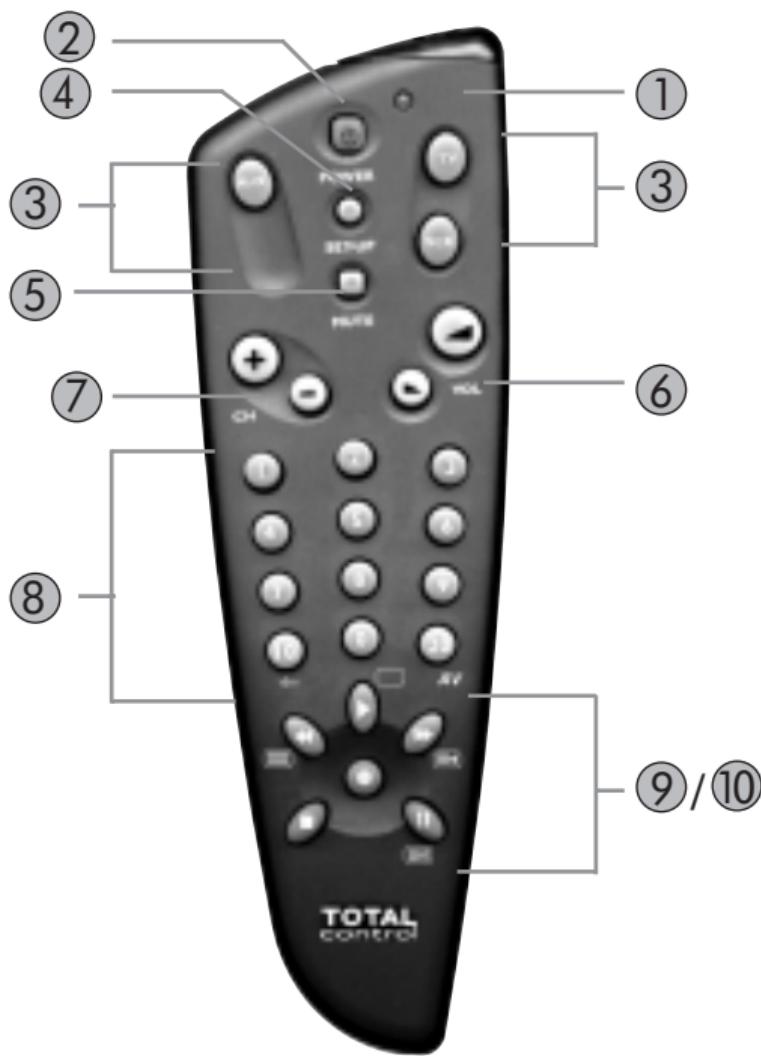

Your TOTAL CONTROL Package contains: Your TOTAL CONTROL Remote and your TOTAL CONTROL Instruction Manual.

Your TOTAL CONTROL can operate three devices. A Television, a Video Recorder and a second Television or Video.

Your TOTAL CONTROL needs four new AAA/LR03 alkaline batteries.

# Features and Functions

The picture below and the chart following describe the various features of your TOTAL CONTROL.

Key	Function
①	<b>LED</b> The LED (Light Emitting Diode) flashes red whenever a key is pressed.
②	<b>Power</b> The Power key controls the same function as on your original remote.
③	<b>Device Keys</b> The TV, VCR and AUX keys select the device to be controlled. For example pressing the TV key allows the remote to control the functions of your Television, after pressing VCR you can operate your Video Cassette Recorder. The AUX key operates a second Television or Video Recorder.

Key	Function
(4)	<b>SET-UP key</b> The SET-UP key is used to set up your TOTAL CONTROL and to access special functions.
(5)	<b>Mute</b> The Mute key operates the same function it did on your original remote.
(6) (7)	<b>Volume, Programme</b> The Volume and Programme keys control the two most used functions of your Television. They operate just as those on your original remote.
(8)	<b>Number Keys</b> The Number keys (0-9, 10, 20) provide functions just like your original remote, such as direct access programme selection. If your original remote uses one/two digit input switching (-/- symbol), this function can be obtained by pressing the -/- key, which is the same as the 10 key. If your original remote has a AV key, this function can be found under the 20 key.
(9)	<b>Video Recorder Keys</b> After pressing the VCR key, the Video Recorder keys operate the functions of your Video Recorder. To prevent accidental recording, the Record key must be pressed twice to start recording.
(10)	<b>Teletext Keys</b> After pressing the TV key, the top row of the Video Recorder keys are used to operate the main teletext functions. The symbols below the keys are for teletext. The Text keys are used to access the teletext functions of your Television. Of course, your Television must be teletext capable.
TEXT	Puts the Television in the teletext mode
TV	Switches the Television back to regular viewing mode. On some Televisions, this may be done by pressing the TEXT key several times.
HOLD/ STOP	Stops changing pages.
EXPAND	Shows the top half of the teletext page in larger letters. By pressing again, you can see the bottom half of the teletext page enlarged. To return to regular teletext viewing, press the EXPAND key again, or press the TEXT key, depending on your television.

**Note:** For a more detailed explanation of teletext, please refer to the manual of your Television. Remember, different Televisions control teletext features in different ways. Not all of the teletext functions may be available for your particular model.

With the TOTAL CONTROL, there are two ways to use the sleepTimer. If your TV came with this feature built in, follow the instructions "Device SleepTimer" below. If your device did not come with this feature, follow the instructions "TOTAL CONTROL SleepTimer"
